Some finance organizations need a complete overhaul and we would call that finance transformation, everything from new technology, how teams are organized, who should be brought in to do seasonal work (like year-end budgets), where can they outsource, etc., and save some money.

**Improve.  
Increase.  
Accelerate.  
BlackLine.**

Our Accounting  
Automation Solution

 **BLACKLINE**

UHY Consulting has stood at the forefront with BlackLine since 2006. As one of the first implementation partners in 2009, we are proud to say that we have more implementations under our belt than any other BlackLine partner. Building on that legacy, UHY Consulting was announced as BlackLine's first Platinum Partner in 2014. In addition, since BlackLine trusts our expertise, we often help test and launch new product features.

**UHY Consulting has completed more implementations and optimizations than any other BlackLine partner.**

**We're 8,200 strong.**

Our consulting practice is grounded in the strength of UHY International, a top 20 global accounting network with 8,200 staff members and 300 independent member firms operating in more than 100 countries. Our consultants employ a leading practice methodology approach with experience in multiple industries, countries, and languages.

**We know BlackLine inside and out.**

From start to finish, UHY Consulting provides your organization with comprehensive guidance, training, and support. By fully leveraging BlackLine's automation and continuous improvement capabilities, we can help you increase the quality and efficiency of your record-to-report process.

UHY Consulting takes a tailored approach for each client. Our consultants build clear roadmaps and future rollout plans using our project management methodology to deliver projects consistently and on time.

**UHY Consulting has an extensive, stand-alone national practice focused solely on BlackLine**

**With 12+ dedicated BlackLine consultants, our numbers speak for themselves:**

**240,000**  
hours for our clients

**9,000**  
staff and users trained

**305**  
unique BlackLine projects

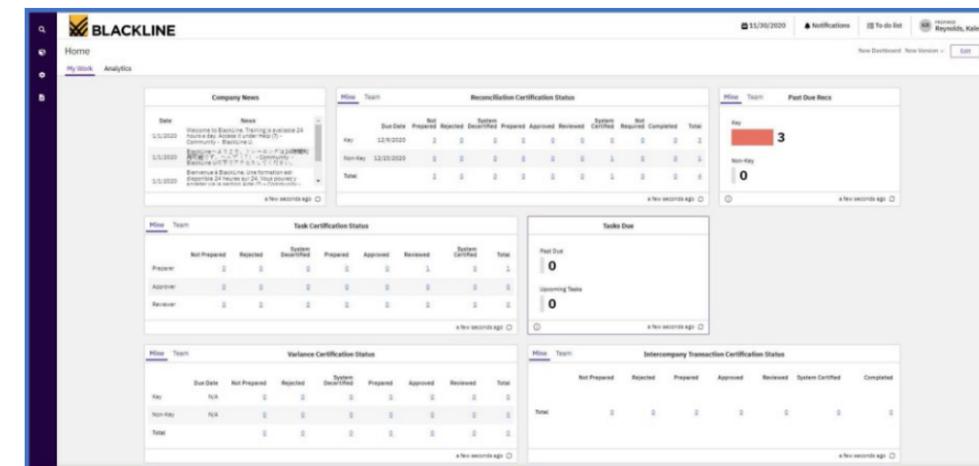

**107**  
unique BlackLine clients

**Our Approach to Implementations.**

We know that an implementation is only as good as the team that we leave behind to execute it. Therefore, our consultants employ a blended learning model that ensures knowledge transfers effectively to system administrators and end-users. Our goal is to ensure that we leverage the full functionality and automation of BlackLine for your organization.

We understand BlackLine is not your only business focus, so we offer customized learning opportunities. For example, we host an annual UHY BlackLine Client-only Summit with attendees from over 40 leading national and global companies, as well as quarterly webinars.

Easily monitor the status of reconciliations, tasks, and variances; customize your dashboard with relevant product cards.

**Record-to-Report Automation Solutions**

UHY Consulting has an expansive range of solutions to solve your accounting and business challenges. In addition to BlackLine, our specialized UHY teams work with the industry-leading software platforms – Planful, Redwood, and Boomi – to provide end-to-end support for your record-to-report process.
